

# The management of B3 breast lesions

EUSOMA guidelines in collaboration with EUSOBI, ESP (BWG), ESSO

## WEBINAR PROGRAMME

26th November 2024, 18.00 - 19.30 CET

Chair. F. Sardanelli, M. Smidt

18.00 Welcome and Introduction, F. Sardanelli, M. Smidt

### **Papillary lesions**

18.05 Case presentation: J. Camps

18.10 Discussion among the experts (radiologist, pathologist, surgeon)

18.20 Poll among participants

18.25 Questions from the audience

### **Fibroepithelial lesions (Phyllodes tumors)**

18.35 Case presentation: A. Shaaban, G. Catanuto

18.40 Discussion among the experts (radiologist, pathologist, surgeon)

18.50 Poll among participants

18.55 Questions from the audience

19.05 Primary prevention in B3 lesions: M. Smidt

19.20 Questions from the audience

19.25 Conclusions

EUSOMA together with EUSOBI, ESP (BWG) and ESSO, has published in 2024 the European guidelines for the diagnosis, treatment and follow-up of breast lesions with uncertain malignant potential (B3 lesions).

These guidelines provide practical, evidence based recommendations which can be applied in clinical practice through a multidisciplinary approach.

The webinar aims at presenting and discussing real clinical cases, focusing on the importance of adequate classification and multidisciplinary discussion which is essential to ensure radiological and pathological concordance for the diagnosis of B3 lesions.

### **FACULTY**

J. Camps (Spain), G. Catanuto (Italy), F. Sardanelli (Italy), M. Smidt (The Netherlands), A. Shaaban (United Kingdom)

### **Organizing Secretariat**

EUSOMA - Viale Belfiore 10, Florence, Italy

[Registration is free but compulsory up to a maximum of 500 participants](#)
